EXPERIENCE

BANKS JOURNAL
Digital Designer | Currently | Newport Beach, CA

While the fashion brand has been in a period of expansion, so has their marketing content. Based in the new office HQ in Newport Beach, I work alongside the art director to create catalogues, web and instagram content, flyers and email newsletters showcasing the seasonal product lines and launches. This heavily digital work is accomplished through layout design, kinetic imagery and coding.

DESIGN RANCH
Graphic Design Intern | Spring 2018 | Kansas City, MO

With the studio's focus chiefly on branding, I assisted the studio with numerous identity intensive projects. Tasks included logo ideation, layout design, project photoshoots cataloguing their portfolio and the creation of motion graphics used to animate various brand attributes for their clients.
